- **‘Sprinkle On – Crabgrass Gone.’™**
- Garden Weasel AG is a natural-acting crabgrass killer.
- Recognized as safer to use around people and pets.
- Garden Weasel is known for its well-advertised, non-polluting, soil cultivation tools, such as Garden Weasel and Garden Claw®.
- Garden Weasel AG Crabgrass Killer is offered for sale in independent hardware stores and garden centers in Houston, and other Texas Gulf Coast markets; or online at www.crabgrassalert.com. Specific stores offering the product may be found at www.gardenweasel.com. Or, ask your store manager to order it in for you.
- Garden Weasel AG, a post-emergent herbicide, is applied directly as a powder to moistened Crabgrass, Basketgrass, Chickweed, Clover, and similar weeds. When used properly, Garden Weasel AG kills existing crabgrass without harming St. Augustine, Bahia, Common Bermuda, or Centipede grass.
- Great strides have been made in making natural ingredients into a highly effective “green” lawn and garden products.
- The product may be applied whenever the grass is not dormant, and air temperature is above 60 degrees.
